

**Tuscola Board of Education**  
**Approve New Contract for 2018-2022**

A new four year contract between the Tuscola Education Association (TEA) and the Tuscola Board of Education was adopted by the Board at its meeting on Monday, August 27, 2018 – one that will continue to position the district to respond effectively to the financial challenges the district faces.

“The agreement represents a collaboration in the best interest of our taxpayers and the students of the district” said Superintendent Michael Smith. It is responsive to the challenging economic conditions faced by taxpayers, and offers a realistic and fair contract resolution.

From Michael Smith “On behalf of the Tuscola Board of Education we would like to thank the Tuscola Teachers’ Association for their willingness to work together to meet the needs of the Tuscola school district. The agreement represents collaboration between the district and the TEA. We are grateful for their recognition of these continued challenging economic times which resulted in a successful completion of these negotiations.”
